

Arc Flash: 40cal/cm² Contractor Series

The Cementex Contractor Series is the perfect blend of premium quality safety equipment in an affordable package. With a generous fit, garments wear well on many body types, ensuring proper coverage for a safe fit and function. The 40 cal/cm² garments of this series have been a staple of the industry for some time. With sturdy, made in the USA construction and fabrics, this product has stood the toughest tests the industry could throw at it. Utilizing premium FR Treated Cotton and featuring a generous fit, the 40 cal/cm² Contractor Series maintains high quality comfort, durability, and wearability.

The Contractor Series is available as individual items and conveniently configured kits to fit your specific requirements. We have many preconfigured kits that will satisfy most situations, however, custom kit combinations are available upon request and may include varying size of coat and pant and/or short or tall sizing.

- Available in sizes Small - 5X (unless indicated)
- Meets current ASTM F1506 and ASTM F1959/F1959M-99 standards

Coats/Coverall

- FR hook and loop front closure for easy and rapid removal
- FR hook and loop wrist adjustment for function with insulating rubber gloves
- FR hook and loop ankle adjustment for easy fit over boots

Pants/Bib

- Quick connect shoulder straps for easy access and removal (Bib)
- FR hook and loop hip closure and ankle adjustment

Contractor 40cal/cm² Task Wear Individual Clothing Options

Part Number	Description

Contractor Series Sizing

- The measurements above are in actual inches and may not reflect how garments are familiarly sized.
- If you have questions about sizing please contact customer support or your sales representative.

Standard Inseam

Accommodates 5'10" - 6'1"

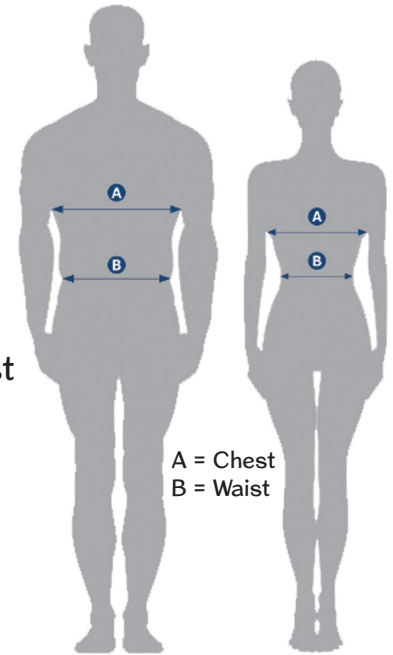

Custom/Special Order:

- **Short:** 5'7" - 5'10"
- **Tall:** 6'1" - 6'4"
- **XTall:** 6'4" - 6'7"

Custom Sizing Available

Proper Measurement Points

- **Chest:** Measure around the chest just under the arms and across the shoulder blades.
- **Waist:** Measure around the natural waistline.

User Body Measurements: The workers actual measurements determined using a fabric measuring tape.

Coat, Pant/Bib and Coverall Measurements: Garment dimensions are larger than the User's measurements to allow space for movement.

Contractor Series Size Chart								
Inches	S	M	L	XL	2X	3X	4X	5X
